If he/she is not so satisfied, the proposed changes must be referred to the Commission for a decision on approval.

7. The Licence Holder must notify the Executive Director of any proposed changes to the construction or design of Levels B1 and 1 of the Casino Venue. Notification must be accompanied by relevant drawings and an assessment of any impacts the alterations may have on:

The Executive Director may approve the proposed changes to the construction or design if he or she is satisfied that there are no adverse impacts in relation to the matters specified in (a)-(e) above. If the Executive Director is not satisfied, he or she will refer the proposal to the Commission for determination.

- (b) It now wants to make minor changes to the outside smoking balcony attached to the MGF.
- (c) It wants to install two permanent wall hearts and affix screens to the bases of the relocated EGMs to mitigate sun glare and visibility of gambling activity outside the venue.
- (d) In addition, to relocate the EGMs, additional CCTV cameras will be installed on the smoking balcony.
- (e) There is no impact on the existing footprint of the gaming areas.
- (f) The installation of the hoardings will have no adverse effect on the matters set out in condition 7 of its venue licence.

Decision

8. The Commission was satisfied that the proposed construction and design changes would not adversely impact upon any of the matters set out in condition 7. The construction and design changes proposed are approved by the Executive Director under delegated authority pursuant to conditions 6 and 7 of SHL’s venue licence. The construction and design changes are to be generally in accordance with the application.
