>
> The process by which the Licence Holder may obtain approval for construction or design changes to Levels 1, 2, 3, 5 and 6 of the casino venue, including the Gambling Area (paragraph (a) above) is set out in condition 7. The Commission will determine any application for approval under 6(b). The Executive Director may approve the addition or alteration of signage relating to the casino business on any building, road or structure within the casino block (paragraph (c) above) if he/she is satisfied the proposed changes will have no potentially adverse effects. If he/she is not so satisfied, the proposed changes must be referred to the Commission for a decision on approval.

The Executive Director may approve the proposed changes to the construction or design if he or she is satisfied that there are no adverse impacts in relation to the matters specified in (a)-(e) above. If the Executive Director is not satisfied, he or she will refer the proposal to the Commission for determination.

Submissions

3. SCAL submitted as follows:

(a) It wants to install a balustrade on either side at the top of the new level 2 escalators leading to the MGF floor entry. This will allow patrons to distinguish clearly between the Gambling Area and the non-Gambling Area.

(b) The proposed changes will have no bearing on any of the matters set out in condition 7.

Decision

4. The Commission was satisfied that the proposal would not adversely impact upon any of the matters set out in condition 7. Accordingly the construction and design changes proposed are approved by the Executive Director under delegated authority pursuant to conditions 6 and 7 of SCAL's venue licence. The construction and design changes are to be generally in accordance with the application.
