

**UNDER DELEGATED AUTHORITY ON AN APPLICATION  
BY SKYCITY CASINO MANAGEMENT LIMITED FOR APPROVAL OF A NEW FLOOR PLAN  
FOR THE HAMILTON CASINO**

Date of Decision: 25<sup>th</sup> August 2017

1. On 21 August 2017, SKYCITY Casino Management Limited ("SCML") applied, pursuant to conditions 11 and 12 of SCML's operator's licence for the Hamilton casino, for approval of a new floor plan, "August 2017".
2. Conditions 11 and 12 of SCML's operator's licence for the Hamilton casino provide as follows:
  11. The Licence Holder shall operate in accordance with approved floor layouts showing the position of gaming tables and gaming machines.
  12. The Licence Holder shall obtain the approval of the Commission for new floor plans prior to relocating or installing tables or machines in positions not specified in approved floor layouts. When applying, the Licence Holder must submit fresh plans showing the floor layout for the Gambling Area and details of the proposed CCTV layout for the consideration of the Commission. Any changes must comply with the Surveillance Standard. The Executive Director and a single Gambling Commissioner may approve the new floor plans if they are satisfied that the floor layout has no potentially adverse effects. If they are not so satisfied, the proposed floor plan must be referred to the Commission for a decision on approval.
3. SCML submitted as follows:
  - (a) It wants to remove 10 rapid roulette terminals and replace them with a table game.
  - (b) There are no changes to the layout of the gaming machines.
  - (c) At all times the number of EGMs and gaming tables will comply with licence conditions.
4. The proposal raised no issues of regulatory concern for the Commission. Accordingly plan "August 2017" (**attached**) is approved by the Chief Gambling Commissioner and the Executive Director under delegated authority pursuant to conditions 11 and 12 of SCML's operator's licence for the Hamilton casino.

- 5. Once SCML is reliant on plan "August 2017", plan "December 2016" will cease to be valid.
