AND on an application by
CHRISTCHURCH CASINOS LIMITED for approval of new game mixes

of Decision: 26 February 2010

**DECISION ON AN APPLICATION BY CHRISTCHURCH CASINOS LIMITED
FOR APPROVAL OF NEW GAME MIXES**

Introduction

1. Christchurch Casinos Limited ("**CCL**") applied to the Commission for approval of a new Annex A to its operator's licence (which incorporates 16 additional game mixes, AX to BM) under condition 9 of CCL's operator's licence.

Licence condition

2. The relevant licence condition is as follows:

Operator's licence

9. The Licence Holder may operate on casino gaming tables the game types and game mixes specified in Annex A attached to this Licence. The Licence Holder shall obtain the prior approval of the Commission for any change to the game types and/or game mixes specified.

Submissions by CCL

3. CCL stated that:
 - (a) It wants to introduce a new game into the casino, Ultimate Texas Hold'em, and seeks the additional game mixes to enable it to incorporate this new game.
 - (b) As Christchurch casino will be the first casino in New Zealand to introduce Ultimate Texas Hold'em, no game speed has been established for this game. It

therefore held a trial, at which DIA gambling inspectors were present, to determine an approximate rate of play.

4. CCL submitted, in summary, that:
- (a) Ultimate Texas Hold'em generates, on average, 24 rounds per hour.
 - (b) The new game mixes have fewer player spaces and fewer rounds per hour than game mix A, its regulatory benchmark, as follows:

Game mix	No. of rounds per hour	Player spaces
A	1691	718
AX	1558	685
AY	1541	665
AZ	1548	680
BA	1460	658
BB	1417	644
BC	1450	644
BD	1589	687
BE	1572	667
BF	1582	672
BG	1574	665
BH	1566	677
BI	1564	677
BJ	1556	663
BK	1493	658
BL	1444	647
BM	1401	633

The Secretary's submissions

5. The Secretary submitted, in summary, that:
- (a) The trial conducted by CCL comprised three players participating in four 10-minute blocks of play. On average four rounds were completed during each 10-minute trial, which equates to 24 rounds per hour.
 - (b) CCL's calculations appear accurate and indicate that the new game mixes will not increase opportunities for casino gambling compared to game mix A.
 - (c) In decision GC26/09 the Commission stated that approved game mixes should refer to automatic shufflers operating on no more than 50% of *open* Black Jack tables, and suggested that Christchurch's game mixes be amended to incorporate this (at present Annex A refers to 50% of Black Jack tables). In reply, CCL concurred.

Analysis

6. CCL sought approval of 16 new game mixes in order to incorporate a new game, Ultimate Texas Hold'em. The Commission compared proposed game mixes AX-BM with CCL's regulatory benchmark, game mix A, and determined that they would not increase opportunities for casino gambling.
7. The Commission noted that although the trial data presented by CCL for Ultimate Texas Hold'em was limited, the Commission was of the view that new game mixes clearly offer fewer opportunities than game mix A, meaning that they will not increase opportunities for casino gambling.
8. The amendment to Annex A to include the word "open" in relation to automatic shufflers is appropriate, and the Commission has done so.
9. The Commission also noted that CCL now has 65 approved game mixes – considerably more than any other casino in the country. Most of these game mixes are unlikely to be operational so the Commission expects the redundant game mixes to be deleted from Annex A when CCL next seeks a variation of its game mixes.

Decision of the Commission

10. The Commission decided to approve CCL's application for approval of a new Annex A attached under condition 9 of CCL's operator's licence.
