**DECISION ON AN APPLICATION BY CHRISTCHURCH CASINOS LIMITED
 FOR APPROVAL TO INTRODUCE AN AUTOMATIC SHUFFLER
 ON ITS MINI BACCARAT TABLE**

Introduction

1. Christchurch Casinos Limited ("**CCL**") applied to the Commission for approval, under condition 10 of its operator's licence, to introduce an automatic shuffler on its Mini Baccarat table across all its existing (operational) game mixes.
2. The relevant licence condition is as follows:

CCL's operator's licence

10. The approval of the Commission is required prior to the introduction into the Gambling Area of any electronic version of the game types specified in condition 9 above or electronic aids or enhancements or changes to table game rules which create new wagering opportunities.

Submissions by CCL

3. CCL submitted, in summary, that:
 - (a) The introduction of the automatic shuffler would have a minimal impact on the overall speed of play of the casino's tables. Although it has not conducted a formal trial, it has utilised the same factoring as has been applied to the Black Jack tables when automatic shufflers were introduced to that game. That is, Black Jack tables generate approximately 67 rounds per hour without automatic

shufflers, and approximately 72 rounds per hour with automatic shufflers. This increases the speed of that game by a factor of 1.07. Applying this to a Mini Baccarat table suggests that the game would increase from 60 to 64 rounds per hour.

- (b) Incorporating the rate of play of 64 rounds per hour for Mini Baccarat has no material effect on the rate of play of its existing game mixes and all would remain below the regulatory benchmark, as shown in the table below:

The Secretary's submissions

4. The Secretary submitted that:
- (a) The Commission has a preference for maintaining a common sense "in the round" assessment. On that basis, and in light of the minimal nature of this application, the proposed changes to CCL's game mixes do not constitute an increase in opportunities for casino gambling.
 - (b) In its calculations, CCL attributed the same game speed to 5-box Black Jack as it has for 7-box Black Jack. He is of the view that the game speed differs between these two games, but he did not consider it necessary to explore this issue further for the purpose of this application.

Analysis

5. CCL applied for Commission approval to deploy an automatic shuffler on a single Mini Baccarat table on all of its operational game mixes. Commission approval is required pursuant to condition 10 of CCL's operator's licence, which provides that approval is required for the introduction of any new electronic aids or enhancements.
6. The Commission's approach with applications such as these is to compare what is proposed with the approved game mix that provides the greatest opportunities for casino gambling, and which the Commission regards as the benchmark mix. Game mix A is regarded as CCL's benchmark game mix. Compared with game mix A, the Commission was satisfied that CCL's proposal would not increase opportunities.
7. The Commission concurred with the Secretary's submission that 5-box Black Jack would generate a different game speed to 7-box Black Jack, but it did not consider that this affected the outcome of this application.

Decision of the Commission

8. The Commission decided to approve, under condition 10 of CCL's operator's licence, the introduction of a single automatic shuffler on CCL's Mini Baccarat table across all its operational game mixes. The new Annex A is **attached**.
