DECISION

**ON AN APPLICATION BY SKYCITY AUCKLAND LIMITED
FOR APPROVAL OF FLOOR LAYOUT PLANS AND
TO DEPLOY AUTOMATIC SHUFFLERS ON POKER TABLES**

Application

1. SKYCITY Auckland Limited (the "**Applicant**") applied to the Gambling Commission (the "**Commission**") for approval:
 - (a) for a new alternative floor plan, Plan D, adding two Poker games in substitution for one Caribbean Stud Poker table and one Black Jack table;
 - (b) to deploy automatic shuffling machines on its Poker tables; and
 - (c) for four additional floor Plans E, F, G and H adding Rapid Roulette in substitution for a Black Jack table and reconfiguring the floor layout.
2. The applications for approval of Plans D, E, F, G and H were under condition B1 of the Applicant's venue licence.

3. The deployment of automatic shuffling machines is not the subject of a licence condition, but earlier Commission decisions required that the Commission's approval be obtained prior to the introduction of any electronic aid or enhancement to table games.

Background to the applications in their present form

4. At the time of the application, the Applicant had two approved floor plans, B and C.
5. In its application for approval for Plan D, the Applicant proposed replacing Plan B with Plan D. The Applicant made submissions in support this, and in support of its other two applications to deploy automatic shufflers and for approval of Plans E, F, G and H.
6. The Secretary for Internal Affairs also made submissions on each of the three applications.
7. On 8 December 2005 the Applicant wrote to the Commission advising that it wished to amend the three applications, and in particular, that it wished to retain Plan B as an alternative floor plan. It wished to do so in order to use Plan B as a regulatory benchmark against which its proposals could be assessed when considering the potential for any increase in opportunities for casino gambling, as follows:

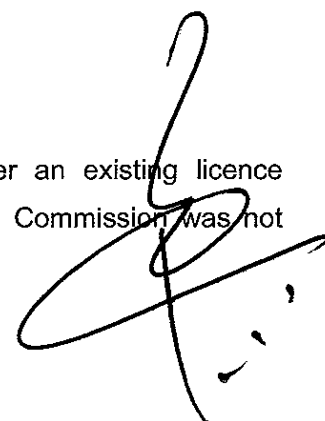

The number of player spaces associated with Plan B is very close to the number that were available as at 19 September 2003. Accordingly, even if the Commission maintains its view that opportunities for casino gambling arising from changes to floor layouts should be assessed against current approved plans rather than those that existed on 19 September 2003, Plan B represents a benchmark that is very similar to the 19 September 2003 position ...

The retention of Plan B means that our application for approval of Plan D and the subsequent application for approval of Plans E, F, G and H can be assessed against the opportunities for casino gambling comprised in Plan B (consistent with the Commission's approach to this issue).

8. As a result of the Applicant's variation, many of the submissions made by the Applicant and the Secretary became redundant as the Applicant and Secretary had sought to assess the potential for increase in opportunities for casino gambling against benchmarks which were not Plan B.
9. The Applicant also stated that its proposal to deploy automatic shufflers could be considered together with the application for approval of Plan D, which involved a reduction in player spaces. It advanced submissions on this, and on the application for approval of Plans E, F, G and H.

Statutory criteria

10. The applications for approval of floor plan layouts were under an existing licence condition. As there was no variation of a licence condition, the Commission was not

required to consult on the proposal as provided in section 140 of the Gambling Act 2003 (the "Act").

11. The Commission is, however, free to determine its own procedure in terms of processing approval applications. In the circumstances, the Commission considered it appropriate to seek the views of the Secretary, given his operational interest.
12. Condition B1 (as amended by the Commission in decision GC02/04) provides as follows:

Approval of specifications for security and surveillance installation

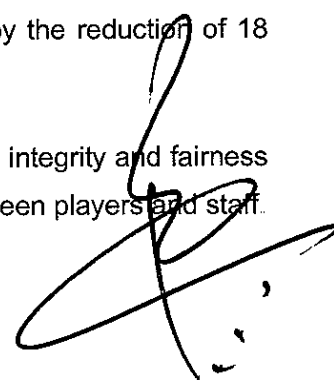

The licence holder shall submit to the Commission for approval all drawings and specifications (except as provided in B2) relating to:

- (a) Gaming Area floor layouts showing gaming tables, gaming machines and close circuit television cameras;
- (b) lighting and any catwalks or viewing panels;
- (c) cashier cages, count rooms, security areas and access thereto;
- (d) areas for inspectors and casino security staff;
- (e) electrical installations, telephone installation, auxiliary power; and
- (f) the master key system or access control system.

Submissions by the Applicant

Automatic shufflers on Poker tables and approval for Plan D

13. The Applicant submitted that deployment of automatic shufflers on the Poker tables, in conjunction with the wider changes to the floor layout comprising Plan D, would not increase opportunities for casino gambling.
14. The Applicant acknowledged that the introduction of automatic shufflers on the 4 Poker tables in Plan C would increase the rate of play for each table by approximately two additional rounds per hour. It submitted, however, that this would not increase opportunities for casino gambling compared against the position as at 19 September 2003, or permitted by Plan B, as Plan C has eight less player spaces than available at that time, which offsets this increase.
15. The Applicant calculated that Plan D has 18 fewer player spaces than Plan B. Without prejudice to its view that the rate of play is not relevant to sections 11 and 12, it submitted that any increase to the rate of play would comfortably be offset by the reduction of 18 player spaces.
16. The Applicant submitted that automatic shufflers would increase the integrity and fairness of Poker as they provide a quality shuffle and prevent collusion between players and staff.

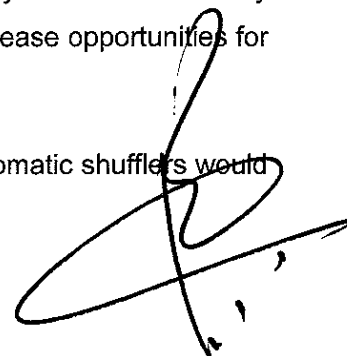

Application for approval for Plans E, F, G and H

17. The Applicant sought approval for four new plans to provide for the introduction of Rapid Roulette in alternate four and six poker table game mixes, in alternate locations. The Applicant stated it had yet to determine where to position Rapid Roulette, but indicated that once Rapid Roulette is installed, two of the four plans will cease to be effective, as will Plans C and D.
18. The Applicant submitted that Plans E and G have 11 fewer player spaces than Plan B, and Plans F and H have 19 fewer player spaces than Plan B (based on the Poker tables accommodating 10 player spaces only). The only difference in the game mix between Plans C and D and Plans E and F, and G and H, is the replacement of one Black Jack game with one Rapid Roulette game. The Applicant submitted that it is difficult to draw any meaningful comparisons between Rapid Roulette and Black Jack in terms of opportunities to gamble, but overall, replacing Black Jack with Roulette would have no bearing on gambling opportunity. The Applicant provided no data in support of this contention.
19. The Applicant submitted that the introduction of electronic wagering terminals would contribute to the integrity and fairness of roulette as it removed the possibility of "past posting" (placing bets after the result is known) and eliminated disputes over ownership and positioning of wagers.
20. The Applicant also noted that the deployment of 20 Rapid Roulette terminals allows 20 players to participate in this game which arguably presents more "front-line" gaming opportunities than a game of Black Jack, which generally accommodates seven seated players, with provision for back-betting by up to 14 players.
21. The Applicant noted that it has not previously attempted to distinguish between seated and standing players, but wished to draw this matter to the Commission's attention.

Secretary's submissions in response

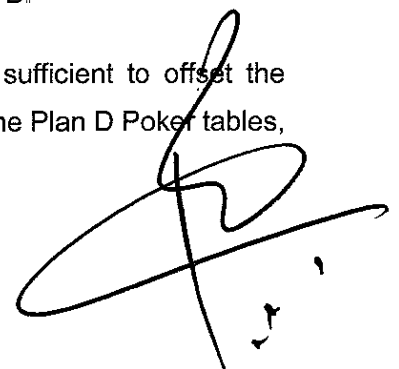

22. The Secretary provided submissions in response to all three applications prior to the Applicant's letter dated 8 December 2005, but was not able to provide written submissions following this letter and prior to the Commission's deliberations. Orally, the Secretary acknowledged that the retention of Plan B would probably create a sufficiently high benchmark so that the introduction of Plans D-H would not increase opportunities for casino gambling.
23. The Secretary agreed with the Applicant that the introduction of automatic shufflers would contribute to the integrity and fairness of Poker.

A large, stylized handwritten signature in black ink, located in the bottom right corner of the page. The signature is highly cursive and overlaps the text of item 23.

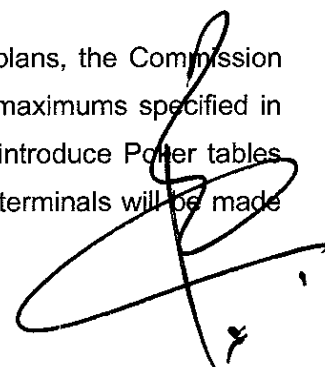

24. The Secretary noted that the area around pit 1 may need to be reconfigured should Plans E, F, G and H be approved, depending on where the Applicant positions Rapid Roulette.

Analysis

25. At the time of application, the Applicant had two floor plans, Plans B and C, approved pursuant to decision GC23/05. In terms of opportunity, Plan B provides almost as many player spaces as were notionally available on 19 September 2003, and provides for a game mix which is roughly equivalent in terms of game type and speed. Unlike the game mix which notionally existed at 19 September 2003, Plan B represents an approved table game mix. Plan C, also approved by the Commission in GC23/05, includes 4 Poker tables in the game mix and has 6 fewer player spaces than Plan B.
26. As noted above, the Applicant originally applied to substitute Plan D for Plan B. The initial submissions made by the Applicant and Secretary assessed the potential for increase in opportunity associated with the proposals using 19 September 2003 (in the case of the Applicant) and Plan C (in the case of the Secretary) as the point of comparison. Both parties provided a methodology, with calculations, to assess whether the increase in the rate of play for Poker associated with the introduction of automatic shuffling machines would be offset by the reduction in player spaces contemplated in Plan D.
27. The Commission views the methodologies and calculations as a positive attempt by the parties to present tangible information to assist the Commission in considering whether the proposals would increase wagering opportunities and gambling opportunities.
28. The parties' calculations were, however, prepared prior to the Applicant's letter dated 8 December 2005, in which it advised that it wished to retain Plan B. The effect of this letter was to render many of the parties' submissions redundant in part, as neither party provided calculations with Plan B as the regulatory benchmark.
29. The current, and future, applications can be assessed against Plan B in terms of considering opportunities for casino gambling. The Commission assessed the three applications sequentially, using Plan B as the regulatory benchmark.
30. Plan C has 10 fewer player spaces than Plan B. The introduction of automatic shufflers on the 4 Poker tables permitted under Plan C game mix will not increase opportunities for gambling compared to the level of opportunity represented by Plan B.
31. Plan B provides 18 more player spaces than Plan D. This is sufficient to offset the estimated increase in rate of play from the automatic shufflers on the Plan D Poker tables, as calculated by both the Applicant and the Secretary.

A large, stylized handwritten signature in black ink, located in the bottom right corner of the page. The signature is highly cursive and appears to be a personal name, possibly 'J. J. J.', though it is difficult to decipher due to its complexity.

32. The Commission noted that the use of automatic shufflers would assist in promoting the fairness and integrity of Poker games. It approves Plan D, and the use of automatic shufflers on Plans C and D.
33. Plans E and G have 11 fewer player spaces than Plan B, and Plans F and H have 19 fewer player spaces than Plan B. The only change to the game mix for Plans E, F, G and H from Plans C and D is the replacement of one Black Jack game with one Rapid Roulette game.
34. The Applicant submitted that in general terms, substituting Black Jack for Roulette would have no bearing on gambling opportunity. The Secretary submitted that he would consider Black Jack to be a faster game than Roulette.
35. Considering these submissions, the Commission approved Plans E, F, G and H, being satisfied that this would not represent an increase in opportunities for casino gambling. Having approved Plans E, F, G and H, Plans C and D cease to apply.
36. Once the Applicant finalises the location for Rapid Roulette, it must notify the Commission and Inspectorate staff, of the Plans – E and F or G and H – upon which it intends to rely. The Plans which it does not intend to utilise will cease to apply at that point with the exception of Plan B which will be retained as a regulatory benchmark until an application is made to change or replace it in that respect.
37. The Applicant raised an issue which has not previously been considered by the Commission, namely the differentiation of “front line” player spaces and “back betters” when calculating player spaces. The Applicant submitted that the deployment of 20 Rapid Roulette terminals allows 20 players to participate in this game. This arguably presents more “front-line” gambling opportunities than a game of Black Jack, which has 21 player spaces comprised of seven “front line” players, with provision for 14 “back betters”.
38. The Commission is satisfied that the approval of Plans E, F, G and H will not increase opportunities for casino gambling, taking this distinction into account. It considers that it is appropriate to have regard to whether player spaces are at the table or back-betting positions and the Applicant and the Secretary should address this point in the future, if relevant.
39. In specifying the approved table game mixes under the various plans, the Commission has indicated where the permitted player spaces differ from the maximums specified in game rules. For example, the Applicant has advised that it will introduce Poker tables with 10 player spaces, and that a maximum of 14 and 20 player terminals will be made

A large, stylized handwritten signature in black ink, located in the bottom right corner of the page. The signature is cursive and somewhat abstract, with a prominent loop at the bottom.

available for Touchbet and Rapid Roulette, respectively. The calculation of player spaces for the purposes of assessing the potential for increase in opportunities has been made on the basis of these player space numbers. It is also assumed that automatic shufflers will be used on the Poker tables in each Plan incorporating Poker.

Decision of the Commission

40. The Commission decided unanimously that the applications (as amended) were consistent with the Act and approved the following on the basis that Plan B remains in place:
- (a) Plan C with automatic shufflers on the Poker tables;
 - (b) Plan D with automatic shufflers;
 - (c) Plans E, F, G and H with automatic shufflers.
41. The Applicant indicated in its application for approval of Plans E, F, G and H, that if these Plans were approved, Plans C and D would become redundant. As the Commission has approved Plans E, F, G and H, Plans C and D cease to be effective.
42. Approval of the alternative floor layouts and game mixes shown in Plans B, E, F, G or H (**attached** to this decision) is subject to the following conditions and requirements.
43. The following table games may be operated under Plan B:
- Black Jack/Pontoon – up to 44 games;
 - Roulette – up to 24 games;
 - Caribbean Stud Poker – up to 10 games;
 - Midi Baccarat – up to 17 games;
 - Mini Baccarat – up to 7 games;
 - Pai Gow – up to 4 games;
 - Tai Sai (Single-sided) – 1 game;
 - Tai Sai (Double-sided) – 1 game;
 - Money Wheel (Double-sided) – 1 game;
 - Touchbet Roulette – 1 game (up to 14 player spaces).
44. The following games may be operated under Plans E or G:

A handwritten signature in black ink, consisting of a large, stylized initial 'G' followed by a vertical line and a horizontal line, with a few small marks below.

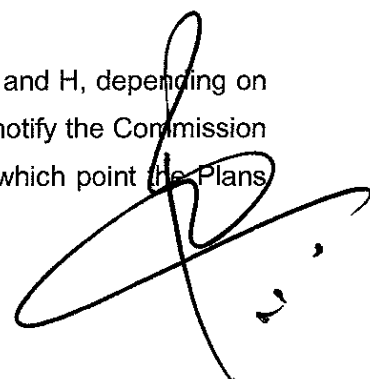

- Black Jack/Pontoon – up to 42 games;
- Roulette – up to 22 games;
- Caribbean Stud Poker – up to 8 games;
- Midi Baccarat – up to 18 games;
- Mini Baccarat – up to 7 games;
- Money Wheel (Double-sided) – 1 game;
- Pai Gow – up to 4 games;
- Poker (with automatic shufflers) – 4 games (up to 10 player spaces);
- Tai Sai (Single-sided) – 1 game;
- Tai Sai (Double-sided) – 1 game;
- Rapid Roulette – 1 game (up to 20 player spaces);
- Touchbet Roulette – 1 game (up to 14 player spaces).

45. The following table games may be operated under either Plans F or H:

- Black Jack/Pontoon – up to 41 games;
- Roulette – up to 22 games;
- Caribbean Stud Poker – up to 7 games;
- Midi Baccarat – up to 18 games;
- Mini Baccarat – up to 7 games;
- Money Wheel (Double-sided) – 1 game;
- Pai Gow – up to 4 games;
- Poker (with automatic shufflers) – up to 6 games (operating up to 10 player spaces);
- Tai Sai (Single-sided) – 1 game;
- Tai Sai (Double-sided) – 1 game;
- Rapid Roulette – 1 game (up to 20 player spaces);
- Touchbet Roulette – 1 game (up to 14 player spaces).

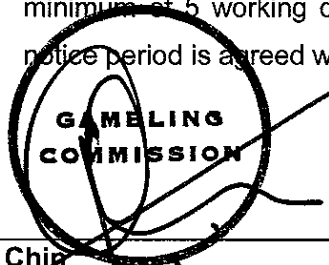

46. With the exception of Rapid Roulette, Touchbet Roulette and the automatic shufflers on Poker games, the foregoing table game mixes for Plans B, E, F, G and H refer to manual versions of the games specified, and do not extend or permit the introduction of electronic versions or any new electronic aid and enhancements to existing games. If any electronic version, aid or enhancement is sought to be introduced, an application by the Licence Holder is required for approval of a revised floor layout.

47. The Licence Holder is permitted to rely on either Plans E or F or G and H, depending on where it elects to locate Rapid Roulette. The Licence Holder must notify the Commission of its election to rely on either Plans E and F or G and H, and at which point the Plans

which it has not elected will cease to apply. This election and the transition from currently approved Plans must occur by 28 February 2005.

48. The Licence Holder is permitted to change between Plans B, E and F or Plans B, G and H (as the case may be), subject to providing the Commission and the Inspectorate with a minimum of 5 working days notice in writing of its intention to do so, unless a shorter notice period is agreed with the Inspectorate on a case-by-case basis.
