**Subject:** Renewal of Licence for The Christchurch Casino

We, David George and Fiona Mcleod Cox support the "Renewal of Licence for the Christchurch Casino".

Our support is based on our "comfort" with the policies and actions of the Casino Board, Management and Staff, that ensure, as far as humanly possible, that any untoward or potentially dangerous (over betting ) activities are nipped in the bud, quietly and efficiently, and in the best interest of the patron, and the community.

"Quickly, softly, catchee danger", seem to be the watch words

The Casino support of our city through the provision of hundreds of full time ,part time, and contract jobs and their skill enhancement, adds substantial dollars into our city's economy.

Equally so is the Casino's macro purchasing dollars for goods and services. eg. food, power, uniforms et al.

The sometimes quite public and oft times quite private support of city based arts, business, cultural and sporting groups and or individuals is to be recognised and applauded. These are the A B C 's of a quality corporate company committed to a progressive, safe, responsible and enjoyable city.

The Board and senior management team, are backed by an "on the floor " team who without question, are committed to the best Casino experience for all who enter the premises.

Christchurch Casino is in our view a progressive, safe, responsible and respected corporate that deserves a Renewal of Licence.

Fiona
